

 TouchStock

Mobile stock management

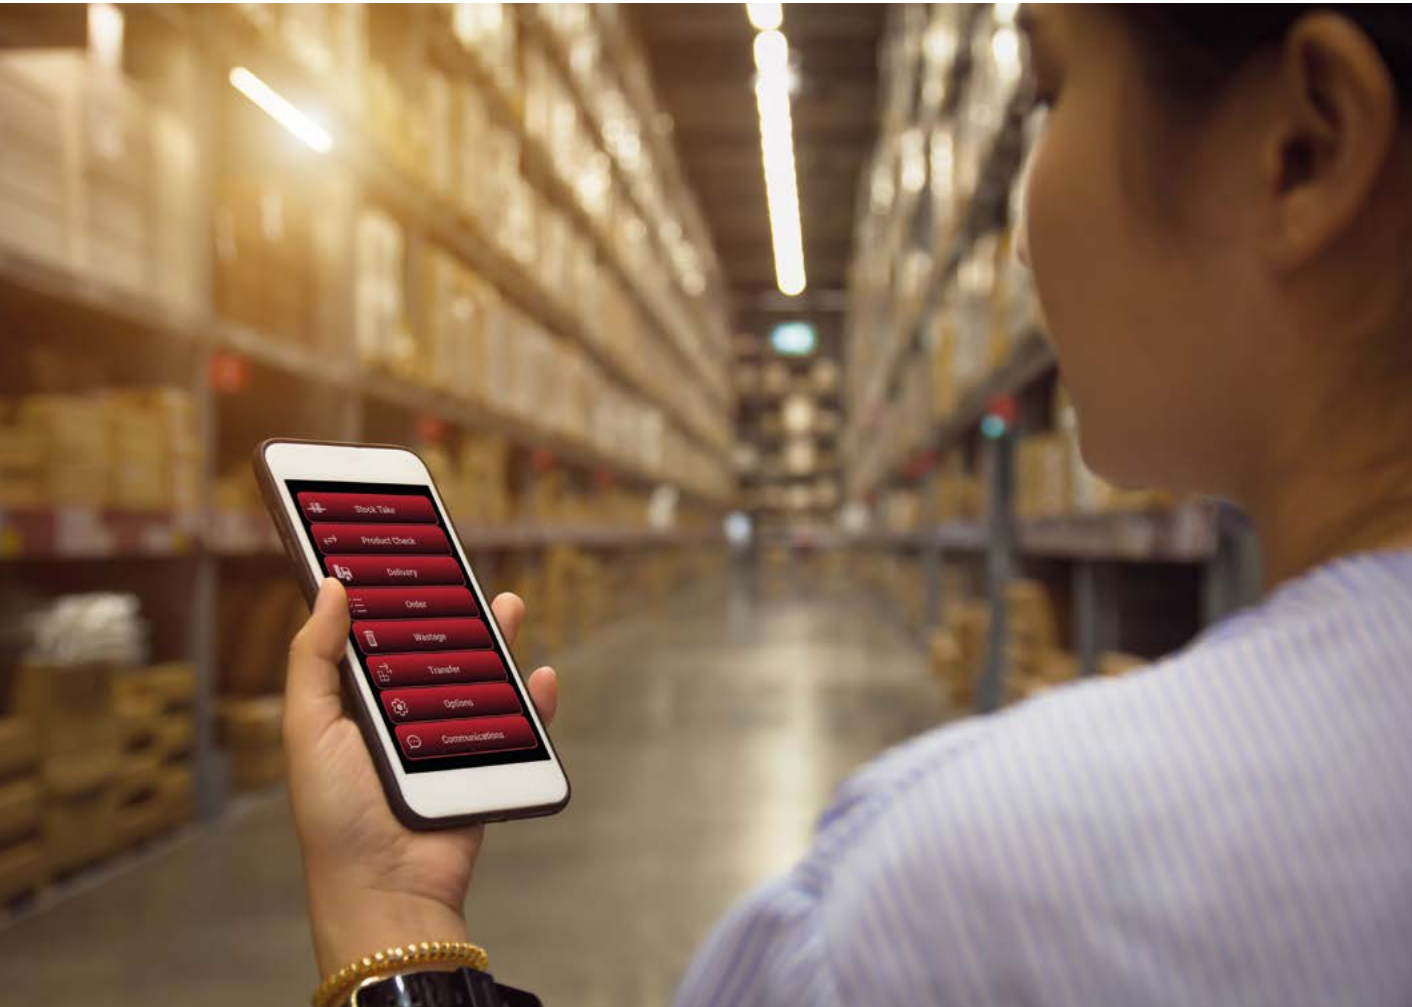

Hand-held stock control software.

A reliable, intuitive stock management solution.

Take the pain out of stock management with a hand-held TouchStock solution that allows you to count stock, scan barcodes, check deliveries and generate labels.

TouchStock handles data effortlessly, enabling you to carry out a full or partial digital stock-take whenever required. No need to make multiple trips to the shop floor, or to use handwritten notes, as any product line can be checked remotely.

Sync with TouchOffice Web+.

Get access to real-time and historical sales reports at your fingertips. TouchOffice Web+ back-office management software provides complete control over your business from anywhere.

Giving you access to stock, staff, pricing and programming, you'll be able to quickly review stock levels, track deliveries, monitor stock in and out and place orders for easy replenishment.

By linking TouchStock with TouchOffice Web+, you can also set up automatic stock purchases and schedule orders for 'low stock' items.

Deliveries.

TouchStock allows you to check your orders on arrival, and make any live adjustments to your stock take.

Price check.

TouchStock will confirm whether the price on the shelf matches the price you're charging at the till.

Remote use.

Check your stock across multiple venues from one location with a smartphone or tablet.

Reduce mistakes.

Let TouchStock do the work. Generate an accurate stock count by scanning product barcodes.

Generate labels.

Sync TouchStock with TouchOffice Web+ to generate new shelf-edge labels quickly and easily.

Wastage.

At the end of the day, quickly scan an item and enter the quantity of wastage to update your stock levels.

Branch to branch.

Transfer stock from one branch stockholding station to another and TouchOffice Web+ will update instantly.

Quicker stock take.

Using TouchStock you can perform quick and easy stock takes with more accuracy, freeing up staff for other tasks.

Intuitive & convenient.

Simply download TouchStock onto your smartphone or tablet and start counting your stock straight away.

Stock can be checked as often as you need. TouchStock scans everything item by item, allowing you to enter quantities seamlessly.

Streamline your operations with one simple, fully integrated ecosystem from ICRTouch.

TouchStock allows you to constantly update your stock count on delivery days and transfer stock from one location to another with TouchOffice Web+. Additionally you can log any wastages, making sure that your stock count is always accurate.

Integrating with the wider ICRTouch ecosystem provides a variety of automated solutions, takes the pressure off staff and creates a flexible and efficient work environment for your business.
